Tenant Screening & Selection

In-Depth Background Checks

Our comprehensive screening process delves deeper than simply credit scores. We conduct thorough reference checks, contacting past landlords and employers to verify the tenant's rental history and financial responsibility. This allows us to assess the tenant's overall character and ability to meet their rental obligations.

Employment Verification

We don't just accept a tenant's word for their employment status. We proactively verify their income through direct contact with their employer. This ensures that the tenant has a stable income source to comfortably cover the rent.

Right to Rent Checks (UK Specific)

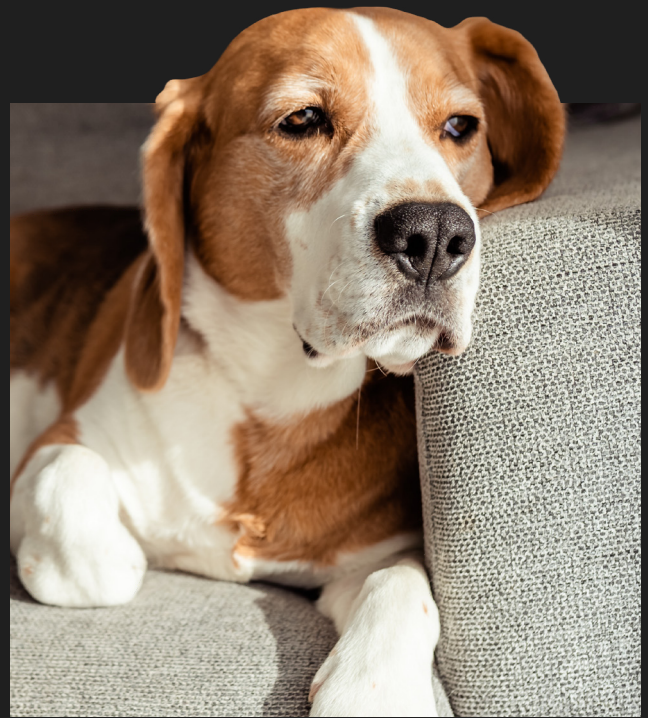

We understand that not all tenants may meet every standard criteria. For instance, a recent graduate may not have an extensive rental history. In these situations, we can explore guarantor options. A guarantor is a financially responsible individual who agrees to cover the rent if the tenant defaults.

Customized Screening Criteria

We understand your unique property and may have specific requirements for your ideal tenant. We work with you to tailor the screening process to ensure the selected tenant aligns with your expectations, whether it's a preference for families, professionals, or pet owners.

Ongoing Communication & Support

We maintain open communication with you throughout the screening process, keeping you updated on our findings and recommendations. We are also available to answer any questions you may have about the potential tenants.

Quick tip:

Be upfront about any pet restrictions or limitations in your property description to avoid wasting time with unqualified applicants during the screening process.
