

# Courtyard in & around.

The purpose of our “In and Around” series is to showcase some of the best family-friendly entertainment, top dining spots, and other useful resources for potential movers.

As part of this series, we offer a short, promotional video tailored to your company or project, which will be shared as a partnership post across our social media channels.

By creating engaging video content, we foster a more interactive audience. Viewers are more likely to like, comment, share, and tag friends when the content is entertaining. While there are exceptions, video content on social media generally garners more engagement than static posts.

Request a video by messaging us on [instagram](#) and Alex will be in touch.
